NUMBER 152.

TO BE TAKEN TO OHIO.

Mrs. McKinley Will Recuperate Among Friends at Her Old Home.

HER CONDITION GREATLY IMPROVED.

May Be a Week or Ten Days Before She Will Be Able to Travel—Doings of the Presidential Party.

San Francisco, May 20.—Although Mrs. McKinley's condition has greatly improved, her physicians have named a week or ten days as the shortest possible time in which she can gather strength to make the trip across the continent. The immediate members of the presidential party will therefore remain here for that length of time, though it is probable that the others will leave for the east during the coming week.

The president and Mrs. McKinley will go direct from San Francisco to Canton, O. At Mrs. McKinley's old home, surrounded by familiar faces and every comfort, it is expected that her recuperation will be more rapid than if she went to Washington. President McKinley spends much of each summer at Canton, and the arrival there will not be far from the date of his regular annual visit. He will probably proceed immediately to Washington after leaving Mrs. McKinley, returning to Canton as soon as the more pressing public business has been disposed of. Miss Mary Barber, Mrs. McKinley's niece, will go with Mrs. McKinley to Canton.

President and Mrs. McKinley will occupy a different car from that which brought them to this coast. The new car, however, is one of the same kind and fully as luxurious. The train will be about as large as the one that came west, having accommodations for the president and cabinet and ladies, Secretary and Mrs. Cortelyou, Dr. and Mrs. Rixby, Mr. and Mrs. Moore, Assistant Secretary Barnes, the White House staff, and 11 members of the press and photographers. The Ogden route will be taken. Governor Gage has been informed by the president that no stops of any length would be made en route.

Secretary and Mrs. Hay expect to leave immediately for Washington, where important matters of state await the attention of the secretary. Postmaster General Smith, Secretary Hitchcock and Secretary Wilson will remain with the president even though the day of departure is delayed. Secretary Long, who left Sunday for Colorado Springs, will proceed to Washington as soon as possible.

Southern Presbyterians.

Little Rock, May 20.—In the Southern Presbyterian general assembly articles of agreement for consolidation of the Presbyterian Theological seminaries at Danville and Louisville, under the name of Presbyterian Theological Seminary of Kentucky, were read and referred, as was a report in favor of establishing a theological seminary at Austin, Tex. A permanent committee on the Sabbath emphasized the difficulty if not impossibility of influencing the masses to respect the Lord's day as long as the government requires its employees to work on the Sabbath.

Russia and Manchuria.

New York, May 20.—In the course of a long interview relative to the situation in China cabled to The Herald from St. Petersburg, a Russian of high rank, presumably Count Lamsdorff, the minister of foreign affairs, is quoted as saying in answer to the question "What about Manchuria?" "The time to make objection was when the concession was made, years ago. Does any one suppose that any country is to build a railroad through such a country and leave it unprotected or to be wrecked wherever wild hordes choose to operate? Besides, I consider the Siberian railroad is of the highest importance to the commerce of the world, especially so to America."

Dangerous Derelicts.

New York, May 20.—Two large ocean liners, L'Aquitaine from Havre and Mesaba from London, report that in crossing the ocean they passed dangerous derelicts which, if met in the night time, could not have been observed by the lookouts and would certainly have resulted in disaster. These wrecks are drifting with the wind and water in the ocean lanes which are being daily traversed by the liners, many of which are carrying on a voyage 1,000 immigrants in their steerage.

Verdict in the Shotwell Case.

Williamsburg, Ky., May 20.—The jury in the murder case of the Shotwell brothers, charged with killing Sutton Farris at Corbin, Ky., some months ago, returned a verdict. John Shotwell was found guilty and given

life imprisonment. Robert was acquitted, and the jury disagreed as to Charles. Farris was killed by his house being blown up while the men were after Ab White, whose attentions to their sister they disapproved.

BY HIS OWN ACT.

A Prominent Presbyterian Minister of New York Dies Abroad.

Rome, May 20.—There is no doubt that the Rev. Maltbie Davenport Babcock, a Presbyterian minister of New York, who was taken to the international hospital at Naples a few weeks ago, suffering from neurasthenia and gastric fever, died by his own act. Dr. Babcock was found gasping on the bed with two severed veins. In response to frantic questions Dr. Babcock feebly raised his eyes and murmured, "All is in vain; I have also taken solution of corrosive sublimate." He evidently desired to make it understood that all efforts to save his life would be futile. These were the last words uttered by the sufferer, who expired almost immediately. No cause assigned.

Alabama Issues.

Montgomery, Ala., May 20.—The paramount issue before the Alabama constitutional convention, which will meet here Tuesday, is the elimination of the negro vote. Other matters to be considered are smaller counties for the state; reform in the judicial system; the elimination of local legislation from the work of the general assembly, and school taxation. There is a disposition to do away with the chancery courts as useless, the present conditional common law courts having the same jurisdiction.

A Mother's Deed.

St. Louis, May 20.—Mrs. Elmer Quimby, wife of a farmer living five miles south of this city, gave morphine to her two children, a boy aged 7 and a girl aged 9, and both children died. Mrs. Quimby took 18 grains of the drug herself, but the dose was so heavy it acted as an emetic and she will recover. Family trouble is said to have induced the woman to commit the crime. She is under arrest on the charge of murder.

First Refiner of Petroleum.

Fair Haven, Mass., May 20.—Weston Howland, 86, discoverer of the method of refining petroleum, is dead. In 1860 he tried his experiments with petroleum, which had just been found in Pennsylvania in large quantities, and was about to give up the problem. By accident he solved the secret of refining and, convinced that petroleum was to be the oil of the future, he established a factory here. It brought him a fortune and fame.

New Incorporations.

Columbus, O., May 20.—Findlay, Columbus Grove and Fort Wayne Railway company, Findlay, \$50,000; Akron Gas Valve company, Akron \$10,000; Grace Evangelical Lutheran church, Toledo; Valley Telephone company, Wilmet, \$1,000; Thornville Banking company, Thornville, \$25,000; Federal Trust company, Cleveland, increase from \$1,000,000 to \$1,500,000; American Frog and Switch company, Hamilton, \$125,000.

Driving Out Monks and Nuns.

City of Mexico, May 20.—The breaking up of the convent of the Carmelite nuns in this city is believed to be the beginning of a movement to drive out monks and nuns living in communities in disobedience of the reform laws. There is much agitation of the matter in religious circles, but the liberal party newspapers commend the firm action of the government, which, it is declared, will be kept up.

Escaped, but Recaptured.

Chardon, O., May 20.—Lyman Ryder, who on Saturday was sentenced to two years in the Ohio penitentiary for pocket-picking, made his escape from the county jail by tunneling through the outer brick walls. He was recaptured by the sheriff's posse after a day and night in the woods.

Struck While Asleep.

Steubenville, O., May 20.—William Crowe of Brilliant met with instant death at the Cleveland and Pittsburgh station at Brilliant. He was seated asleep on the edge of the platform when he was struck by a southbound freight and instantly killed. His body was literally ground up.

Cabinet Crisis in Peru.

Lima, Peru, May 20.—A cabinet crisis is reported to be imminent. It is said the Peruvian minister of finance, Domingo Almenara, has threatened to resign, as he disagrees with his colleagues on the details of the salt monopoly.

Switchmen's Union.

Milwaukee, May 20.—The Switchmen's Union of North America opened its convention with 250 delegates present. Routine business occupied the first day's session. The convention will devote most of its time to revising the examination and other general business.

SABBATH OBSERVANCE

Occupies the Attention of the Presbyterian General Assembly.

DESECRATION OF THE DAY DENOUNCED

Permanent Judicial Commission Recommended as a Court of Last Resort—Ministerial Relief And Other Reports.

Philadelphia, May 20.—With Monday's sessions the actual work of the Presbyterian general sessions began. The report of the revision committee has been made the special order for Thursday, and thereafter, until the question of revising the confession of faith is finally settled, a change was made in the regular order so that reports of special committees and church boards might be submitted and acted upon before the assembly proceeds to discuss revisions.

The report of the standing committee on missions for freedmen, the reports of the boards of ministerial relief and education and of the special committee on judicial commissions were submitted. This latter report is considered second in importance only to that of the committee on revision, as it recommends the creation of judicial committees of presbyteries and synods, and a permanent judicial commission from the membership of the general assemblies to sit as a court of final appeal.

Immediately after the opening of the morning session the standing committee on leave of absence announced the election of Rev. J. R. McKay of Glens Falls, N. Y., as chairman. The report of the standing committee on missions for freedmen was read by Rev. Dr. Henry W. Hulbert of Cleveland, chairman. The committee recommended the endowment of Bid'le university, Charlotte, N. C., \$25,000 being the amount needed, and that the raising of the money be part of the twentieth century fund movement. It was recommended also that the first Sunday of December be set apart for contributions by Sunday schools to the board of missions for freedmen. The report was adopted.

The report of the special committee on Sabbath observance was read by Dr. I. W. Hathaway of New York, secretary of the American Sabbath union. It was unanimously adopted. The report included resolutions protesting against "seven-day journalism," or the Sunday newspaper; commending congress for conditioning the appropriation of \$5,000,000 for the Louisiana purchase exposition to be held in St. Louis, and protesting against the use of the Lord's day for business purposes and commercial interests.

The report of the committee on judicial conditions: On the Book of Discipline: Any presbytery or synod may at any time elect a judicial commission of not less than five ministers and ruling elders for a presbytery, and not less than nine ministers and ruling elders for a synod, and may transmit to such commission any particular judicial case for hearing and determination.

Elder Robert Pitcairn of Pittsburg was appointed vice moderator. The assembly adopted a resolution requesting the board of directors of the Pan-American exposition to close the exposition on Sundays.

McKinley's Congratulations.

Buffalo, May 20.—The following telegram of congratulation from President McKinley was read by President Milburn at the Pan-American dedication exercises: "Fellow-Citizens of the United States and Fellow-Americans from all Our Neighbor Nations: I send you greetings from the shores of the Pacific with fervent prayers for the benediction of Heaven upon this beneficent enterprise, with sincere congratulations to all those whose energy and devotion have brought it to pass, and with heartfelt welcome to our guests from our sister republics, to whom we wish continued and abundant prosperity. May there be no cloud upon this grand festival of peace and commerce, no thought of rivalry except that generous competition in useful arts and industries which benefits all."

Strike Riots in Russia.

St. Petersburg, May 20.—The strike here is practically crushed. A very large number of arrests have been made, 250 persons having been taken into custody at one factory alone. Over 30 and possibly 100 persons were wounded in a street fight when the mob stoned the police. Several deaths are reported at Knathensent as a result of strike riots. The agitation among the students is unquestionably partly responsible for the troubles.

American Soldiers Attacked.

Manilla, May 20.—It is unofficially reported that a body of Filipinos under Angeles attacked a detachment of

American troops, supposed to be of the Twenty-seventh regiment, near Pasaco, in South Camarines province, killing two soldiers and one native scout and taking one soldier prisoner. The insurgents are still in possession of the mining town of Paracole, North Camarines. The nearest troops are at Indan, 30 miles away.

FEELS ENCOURAGED.

President O'Connell On the Effect of the Machinists' Strike.

Washington, May 20.—The general strike of the employees in the machinery and allied metal trades throughout the country to enforce a 9-hour day with an increase of wages to meet the reduction in the hours of labor took effect Monday. Reports were received by President O'Connell of the National Association of Machinists indicating that a large number of establishments heretofore holding out against the demands of the men were making the necessary concessions. Mr. O'Connell said it was too early to make any estimate of the number of men out. His original figure was 150,000 men directly affected and several hundred thousand indirectly. This figure has been largely reduced by the number of agreements reached in the last two or three days. Mr. O'Connell said the reports so far received were of a very encouraging nature.

Arbitration Proposed.

Chicago, May 20.—The order sent out by President O'Connell of the International Association of Machinists for a general strike in all machine shops in the United States that had not agreed to the demand for a 9-hour day and an increase in wages of 12 1/2 per cent did not become operative in Chicago, except in two or three plants in which an aggregate of fewer than 50 men are employed. A meeting of committees representing the machinists and the Chicago Machinery Manufacturers' association will be held for the purpose of discussing proposed arbitration of wages.

Press Works Affected.

Plainfield, N. J., May 20.—Fully 1,000 machinists and helpers have struck. They were employed in the shops of the Scott Printing Press company, the Potter press works, the Campbell press works and the Aluminum plate and press works. The employees of the Pond Tool company have the promise of the superintendent that their demands will be considered at the annual meeting of the company June 3. At Elizabeth 300 machinists employed in the shops of the Central Railroad of New Jersey are out. Strikes are also on in the shops of S. L. Morse's Sons and Bell, Todd & Company.

In the New York District.

New York, May 20.—At the local headquarters of the central executive board of the International Association of Machinists it was said that not more than 2,000 out of 12,000 machinists in the New York district were on strike. Many of the employers in New York agreed to the workmen's request for a 9-hour day. In Jersey City the only men on strike were about 40 men employed in the small repair shops of the Central Railroad of New Jersey.

Latest Estimate.

Washington, May 20.—President O'Connell estimates that about 50,000 men struck. He bases this prediction on the telegraphic advices that have reached him from the machinists' headquarters in the various cities.

Quit Work.

York, Pa., May 20.—Only two shops in this city were affected by the machinists' strike. Two hundred men in the employ of the York Manufacturing company and S. Morgan Smith quit work.

No Disorder.

Louisville, May 20.—Not more than 200 machinists had registered at their headquarters as "out," though their leaders say scores more have struck. There has been no disorder among the men.

San Francisco Tied Up.

San Francisco, May 20.—The employees of the Union Iron works have joined the ranks of the strikers, and it is now estimated that 6,500 men have left their work benches.

Mayor Johnson Not a Candidate.

Cleveland, May 20.—Mayor Johnson emphatically declares that he will not be a candidate for United States senator or for governor. "There is no office," he said, "within the gift of the people to tempt me to give up the position I now hold. I said during the campaign that if I was elected mayor I would be mayor. I meant it then and I mean it now. I have embarked on a big fight to bring about a just valuation of taxable property in Cleveland and a fair distribution of valuations. It will take me all of two years to accomplish what I have set out to do. If indeed I can do it in that time."

BIG STRIKE IN EFFECT.

Machinists and Allied Trades Out In Force and at Many Points.

HOST OF FIRMS MAKE CONCESSIONS.

Difficulty in Settlement Apprehended at Cincinnati—Situation at Cleveland—Reports Received at National Headquarters.

Cincinnati, May 20.—The machinists' headquarters have reported that three firms have met the demands of the men, making 14 firms where there is no strike. The machinists claim that the strike is complete and that 3,000 machinists and many others not machinists have quit work. About 600 strikers were addressed by President Gompers at their headquarters. He made a most impassioned speech, in which he urged them to stand resolutely by their brethren in their organization, assuring them that the outlook for success was most favorable. Mr. Gompers was thoroughly exhausted when he closed his address.

Walked Out.

Dayton, O., May 20.—The 300 union machinists who had not previously been locked out by their employers in anticipation of the strike walked out in accordance with the instructions received from the International Association of Machinists. Those who stopped work this morning represented about half of the union machinists employed by manufacturers in this city. Both the strikers and employers maintain a firm attitude, and it is a difficult matter to forecast what the result may be.

At Milwaukee.

Milwaukee, May 20.—About 1,000 machinists responded to the order of President James O'Connell of the National Association of Machinists and went on strike in the various plants employing machinists. The men were joined by several hundred helpers. The number of plants affected is 25 out of a total of 28 in the city. The present strike is the largest one of the kind in the history of the city.

No General Strike.

Indianapolis, May 20.—There was not a general strike of the machinists in Indianapolis. Reports received at machinist headquarters indicated that altogether 150 or 200 men had quit work. In the railway machine shops and the engine works the men are working, the firms either having granted the union's demand or made agreements with the men pending negotiations.

Linenmen Out.

St. Joseph, Mo., May 20.—Every linenman in St. Joseph who is a member of the International Brotherhood of Electrical Workers is on strike. An increase in pay from \$2.25 to \$2.50 per day is demanded and a reduction of hours from ten to nine. The schedule was presented to the street railway, electric light, telegraph and telephone companies last week and rejected.

At Cleveland.

Cleveland, May 20.—About 1,200 machinists employed in this city are on strike in order to enforce their demand for a 9-hour working day with 10 hours' pay. The strikers are orderly and quiet. No trouble of any kind has been reported. Probably 1,000 members of the union continued at work, their employers having granted the demand.

Idle at Scranton.

Scranton, Pa., May 20.—Every machine shop in Scranton is idle in consequence of the strike for a day of nine hours and an increase of 1 per cent in wages. After their 3,000 in a quit work, and those with the Lackawanna railroad machinists and car-shop men out for a week past, make nearly five thousand men on strike in Scranton.

At Philadelphia.

Philadelphia, May 20.—It is estimated that not more than 1,000 machinists have quit work in this city because of the refusal of their employers to grant a 9-hour day. The firms thus far affected are all small concerns. Neither the Baldwin locomotive works nor the Cramp company anticipate any trouble. They do not knowingly employ union men.

Fifteen Hundred Idle.

Wilkesbarre, Pa., May 20.—The machinists, blacksmiths, car repairers and laborers employed at the shops of the Central Railroad of New Jersey, the Lehigh Valley Railway company and the Dickson Manufacturing company went out on strike. Fifteen hundred men and boys are idle.

Toledo, May 20.—Machinists to the number of 600 are idle here, their employers having failed to comply with the demands of the International association. The strikers are fairly well organized, and hope to secure a complete victory here.

THE SOUTH'S UNPARALLELED GROWTH.

Some Northern newspapers have recently indulged in editorial reflections upon what they term the "shiftlessness of the South." This shiftlessness is manifested by the poverty of the Southern people as compared with the opulent population of the North. A casual consideration of the reason why the South is not so wealthy as the North would have prevented our esteemed contemporaries, says the Baltimore Sun, from making assertions so absolutely unjust and without foundation.

The South emerged from the Civil war thirty-six years ago utterly broken and bankrupt. More than one-tenth of the entire white adult male population had perished in battle, in prisons or in the hospitals. The labor system was destroyed, thousands of homes had been burned, and everywhere there was mourning and desolation. Practically little was left in a rich and prosperous country except the land, and the means to cultivate that were wanting. The cost of the war in money to the Southern States is hard to estimate. The decrease in the assessment of property 1860 and 1870 was \$2,200,000,000, and that represents only a portion of the loss. Then following upon the desolation of war came the reconstruction era, compared with which the war itself has been termed a merciful visitation of Providence. Of the carpet baggers Judge Jeremiah S. Black said that they not only stole everything in sight, but by their devilish ingenuity they succeeded in running their felonious fingers into the pockets of posterity. To satisfy the greed of these vultures the State Treasuries were looted, school funds squandered, taxes levied so high upon a people unable to pay anything that a general system of confiscation ensued. In addition to this bonded debts were put upon the several States by the mixed Legislatures of negroes and white carpet baggers from the North which aggregated over \$300,000,000. In a short time the Legislature of North Carolina incurred an indebtedness of \$38,000,000, nearly a third as much as the total valuation of all the property in the State, and taxation was doubled. The debt of Alabama was increased over \$18,000,000. In South Carolina taxes were increased from \$400,000 a year to \$2,000,000. The debt of Georgia was increased \$12,000,000, and so with all the States, Louisiana suffering worst of all with an increase of \$40,000,000 in her debt and \$140,000,000 squandered and nothing to show for it.

The political troubles which began in 1861 ended in 1876, but the financial troubles of the South were not ended. After having borne the crushing burden of their own side in the contest they began to pay a large share of the cost of conquering themselves in payment of the war debt of the United States. In addition to this the South has had to pay in pensions to Union soldiers since the close of the war a sum not much less than the indemnity levied by Germany upon France after the war of 1870, a sum estimated at over \$600,000,000. Then, too, the South has been burdened with the cost of educating the negro population, which has contributed little or nothing for that purpose; the tariff tax has borne more heavily upon the South than upon the North, not only in the increased cost of manufactured articles it has bought, but in the decreased price of the agricultural products it has sold.

While the South was being impoverished and desolated by war the North was growing rich. All the vast sums expended in military and civil operations were flowing into her coffers. Army and navy contractors were fattening and manufacturers were growing rich. During the war decade, while the South lost in assessment valuation over \$2,000,000,000, the North gained over \$4,370,000,000. During the years since the war the North has paid its share of pensions, but it has all come back, besides the greater part of what has been levied upon the South, and the North has been equally fortunate in gathering in the money expended by the Federal Government for rivers and

harbors, for public buildings and for interest on the public debt.

Now, let us see what the South has accomplished in the way of recuperation from the ruin which had overwhelmed her in 1870. The census of 1880 showed that in the assessment of property she had gained nearly \$5,000,000,000. In the next ten years she gained 60 per cent., while the New England and Middle States gained only 22 per cent., and since 1880 the proportion of cotton has doubled and manufactures have increased in a far greater proportion. The capital invested in cotton manufacturing has increased over tenfold in ten years. In fifteen years 25,000 miles of railroad were built and \$1,000,000,000 expended on them. In fifteen years the production of pig iron increased from 397,000 to 1,900,000 tons, and in the same time the coal products increased five fold. These figures are given only as indicating the progress made. In various lines of manufacturing the South has suddenly taken an important position. It produces its own food supply instead of sending money to the West to buy it. It is true that a great deal of the capital for the Southern enterprises comes from the North, but the greater part represents the savings of the Southern people themselves. There may be shiftlessness in the South, but the Southern people are doing right well notwithstanding. History does not furnish any parallel to this recovery of a people from absolute ruin.

NO HUMBLED HERE.

Maysville Endorsement Is What Counts With the Maysville Public.

You can't fool the public all the time. They will find you out at last. Every time a man is fooled. Another skeptic is made. Many the remedy that makes the skeptic. Because it fails to keep its promises. Doan's Kidney Pills bring renewed reward.

They cure the skeptic. Plenty of proof of this at home. Maysville proof for Maysville people. Here's a case of it: Mrs. J. A. Thomas, of 311 East Second street, says: "The result of my experience with Doan's Kidney Pills was most gratifying and their use brought speedy relief to backache which had been a source of much discomfort to me for some time. It is a pleasure to endorse a remedy of such proven value. I procured Doan's Kidney Pills at J. Jas Wood & Son's drug store, corner of West Second and Market streets.

PRAYER OF CHINESE.

Desire the Retention of American Troops at Peking.

Washington, May 20.—The war department has received from China a petition presented to General Chaffee by a massmeeting of several thousand Chinamen, who assembled in front of the office of the provost marshal at Peking, March 28 last, and signed by 5,600 Chinese residents of that city, praying the retention of the American troops. The petition told of the good work performed by the American soldiers. Captain John F. Tillson, Fourteenth infantry, the provost marshal, in replying to the petition said: "It is needless to tell you that the United States does not maintain an army for the purpose of furnishing the city of Peking with good municipal government. That you will need our protection there is little doubt, and as the broader principles of humanity most frequently sway the people of my country, your petition is not hopeless, and I shall be glad to refer it to our government."

Fatal Accident in a Steel Plant.

Youngstown, O., May 20.—The bursting of a mammoth converter in the Bessemer department of the National Steel company's plant allowed 13 tons of molten metal to flow over the mill, bringing death to five workmen and serious injury to three more. The killed: John Soultzer, Thomas Maxwell, Paul Washaw, two unknown Hungarians. The exact cause of the explosion has not yet been determined, the supposition being that either the bottom of the converter dropped out or water got into the wind-box.

Ended in Quadruple Tragedy.

Evansville, Ind., May 20.—Evert Conway, 27, married, shot and killed C. W. Garrison and wife and fatally wounded Patrolman Ben Wailis. After being driven to desperation by the police, Conway killed himself. Conway was a neighbor of the Garrisons. The two families had not been on friendly terms for several months. The wives of the men quarreled.

Boat Overturned.

Seattle, Wash., May 20.—Dr. Eugene D. Andruss, a prominent dentist, was drowned by the overturning of a row-boat on Lake Washington. The deceased was a Union veteran in the One Hundred and Tenth volunteers and a native of Ohio. He was 59 years old, and leaves a widow and six children, prominent socially.

UNDER THE HEAD OF

CURTAINS!

Quite a chapter might be written that would prove of interest now. We told you last week of Rope Portieres. Many came, all bought. However a few curtains remain, less than a dozen, but you may be a proud possessor if you're prompt. \$1.69 Portieres for \$1 is not a daily occurrence so take the chance at its rise.

Tapestry Portieres.

Heavy double face, reversible, full length and width, handsome fringe with large tassels, new, stylish patterns, six different color schemes. A pair \$24 to \$35.

Sample Lace Curtains.

No space to mention them before—they almost sell too fast—we can hardly supply demand. A new lot. White, cream, ecru. Regular width, length two yards. In regular length they'd sell for \$3 to \$7 a pair. These short lengths 29c. and 35c. each. For door, sash and small window curtains.

Nottingham Curtains.

Fifty designs, all full 3 1/2 yards long, over-lock stitched edges. At whatever price every curtain an unexcelled value. 50c. to \$10 a pair.

D. HUNT & SON.

Ice Cream! Ice Cream!

Having made arrangements with two of the largest creameries in the Ohio Valley for their exclusive product, we are in a position to furnish you with ICE CREAM in any quantity, from one quart to as many gallons as you would like. Our capacity is practically unlimited.

THE BEE HIVE

Is your wife happy? No! We will tell you how to make her so. That's our business. May be she is cleaning house, and to think that old worn out carpet has to be put down again. It's enough to make any wife unhappy. Give your wife a surprise. Tell her to go down to THE BEE HIVE and select one of those new Carpets, just arrived. Then when you have finished your day's work think of that charming and happy wife and the pretty home to welcome you. That's life. Why didn't you think of that before? And if you really want to make love we can furnish you with Window Shades as low as 10 cents—good enough to keep your neighbors' eyes out; but the one we have in mind is the lace insertion with fringe edge that all stores ask 65c. Our price is 39c. Ten styles of Curtain Poles to select from, 10c. to 50c., and a nice Silkolene Curtain at 10c. per yard, and now the room's complete. Waking up in the morning in such a room is as good as a dream. Carpet, twenty-four yards, \$6; Curtain Poles, 30c; Window Shades, 20c.; Silkolene Curtains, \$1. Total, \$7.50. Now do you think your wife is asking too much?

CHILDREN'S SAILOR HATS

All styles—39c., 45c., 69c., 98c. A new line of Percales at 12½c. Broad stripes are all the go. Better see our line before buying.

FRINGE QUILTS

For iron or brass beds, at \$1.49, worth \$2. You can have a spring dress without embroidery or lace. That's the reason we carry such a large assortment.

SHIRTS

For men and boys. Madras box plait fronts, Men's 59c.; Boys' 50c. Some people would sell them for \$1. We think they are worth 75c.

PROVED FATAL.

A Young Negro Died This Morning From Wound Received Sunday Evening.

Will Conway, a young negro man, died at the County Infirmary about 4 o'clock this morning from a pistol shot wound received Sunday evening.

Conway's home was at Minerva. He and his best girl had had a quarrel and while out walking Sunday evening near Minerva, Conway claimed he accidentally shot himself. The girl was a few feet in front of him at the time and did not see the shooting. Some of his friends think the shot was fired intentionally. The ball penetrated the stomach.

Conway was brought in to the Infirmary Monday afternoon by Superintendent Slattery.

Fought for His Life.

"My father and sister both died of consumption," writes J. T. Weatherwax, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of pneumonia left an obstinate cough and very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infallible for coughs, colds and all throat and lung trouble. Guaranteed bottles 50c. and \$1 at J. Jas. Wood & Son's drug store.

MILITARY CAMPS.

Accommodations For the Soldier Boys at the Pan-American Exposition.

Many military organizations intend to visit the Pan-American Exposition during the summer. Arrangements have been made to provide first class accommodations for them.

The Exposition will maintain a permanent camp within the grounds for the accommodation of about 200 men at one time.

This camp will be supplied with tents, floors, cots, buckets, basins, pint cups, light, water and sinks, for the use of which no charge will be made. It will be necessary for visiting organizations to furnish their own blankets and subsistence.

There will be no accommodation for cooking in this camp, but the visitors will no doubt be able to make satisfactory arrangements with restaurants on the grounds at reasonable rates.

It is expected that organizations taking advantage of these camp privileges will, at such time as may be agreed upon beforehand, give military exhibitions without charge in the Stadium.

Bands in uniform will be admitted to the grounds free. Organizations using this camp will pay one general admission per man when they enter the grounds and must be governed by the rules and regulations laid down by the Exposition Company.

On account of the large number of organizations now applying for camp facilities at the Exposition the use of this camp will be limited to a period not exceeding six days for any one organization.

Large bodies of troops visiting the Exposition must be quartered outside the grounds, where a large camp for this purpose has been established.

Major Charles J. Wolf is in charge of the Military Bureau, and he is kept very busy these days furnishing information to organizations intending to visit the Exposition.

The White Collar Line packet, Bonanza, was hauled out on the Madison (Ind.) ways Saturday for a general overhauling. She will be on the docks for several weeks. The Lizzie Bay, of the same company, was let into the water Saturday from these ways.

The towboat R. K. Wells, a Kanawha and Ohio river packet, burned to the water's edge while lying at Charleston, W. Va., Sunday night. The boat was insured for \$8,000. She was valued at \$20,000, and owned by the Wells line. Capt. Joseph Wells was in charge of the boat. An overturned lamp started the blaze.

Funeral of Mrs. Gage.

Washington, May 20.—Funeral services over the remains of Mrs. Lyman J. Gage were held at the secretary's residence on Massachusetts avenue. Rev. Dr. D. N. Hillis of Plymouth church, Brooklyn, conducted the services, which were exceedingly simple. In the course of his remarks Dr. Hillis paid a beautiful tribute to the life and character of Mrs. Gage, whom he had known and respected for many years. The remains were shipped to Chicago for interment.

Through Breckinridge & Shelby and H. E. Ross, her attorneys, Mrs. Anna D. McDougle has filed suit at Lexington against the National Life Insurance Company, of Montpelier, Vt., for \$5,000 on a policy issued by the defendant company to her husband, the late Harry C. McDougle.

Mrs. Lucy Benton, wife of Rev. W. T. Benton, died a few days ago at the home of her husband in Cynthiana. She was about sixty-four years of age and is survived by her husband and three children, Mr. Shoptaugh, of Millersburg; Mrs. Lev. Benton and Mrs. J. R. Wallingford, of Cynthiana.

A spark from a passing C. and O. engine Monday afternoon set fire to the timbers of the incline at the Wormald coal elevators. The blaze was threatening the building when some boys discovered it and gave the alarm. It was extinguished without calling out the fire department.

Miss Marguerite Fitzgerald, of this city, daughter of Mr. and Mrs. James W. Fitzgerald, won the prize in the Courier-Journal's unfinished faces drawing last week. The faces were those of John Adams, Abraham Lincoln, George Washington, James A. Garfield, Ulysses S. Grant, James Buchanan, Benjamin Harrison, Grover Cleveland, Andrew Jackson, James Madison, William McKinley.

The company drilling for oil in the Licking valley, ten miles east of Owingsville, has struck another vein, which, at a depth of 300 feet, is producing forty barrels of oil a day. This is the eighth well that this company has sunk, and they are producing from twenty-five to sixty barrels a day each. There is intense excitement in that community. Speculators are arriving daily, and the price of land is rapidly advancing.

W. W. Baxter, the advertising fake who was let out of jail under bond of \$300 for his appearance at the next term of the Circuit Court to answer charge of obtaining money under false pretenses, and who left for his home at Lexington Monday, tries to make the people of that city believe he has done nothing wrong, but is a little angel with wings almost ready to sprout. He says the Chief of Police treated him "shamefully," when the fact of the matter is Mr. Donovan let him have money to pay his way home. He also says he has arranged to have his case filed away.

He Is a Wonder.

All who see Mr. C. F. Collier, of Cherokee, Iowa, as he is now, cheerful, erect, vigorous, without an ache, could hardly believe he is the same man who, a short time ago, had to sit in a chair, propped up by cushions, suffering intensely from an aching back, in agony if he tried to stoop—all caused by chronic kidney trouble, that no medicine helped until he used Electric Bitters and was wholly cured by three bottles. Positively cures backache, nervousness, loss of appetite, all kidney troubles. Only 50c. at J. Jas. Wood & Son's drug store.

The personal estate of Virgil Frediana was appraised at \$33.30. The sale amounted to \$40.25. The widow was allotted \$134.40.

A jury at Carlisle awarded John M. Mason damages of \$2,500 against the L. and N. for injuries received by falling from a train at Cowan Station.

Young Women

The entry into womanhood is a critical time for a girl. With her whole being undergoing a change, the seeds of female troubles are sown. Little menstrual disorders, if neglected at the time, will follow the woman all her life and grow into fatal complications. That female troubles are robbing homes and filling graveyards, proves this. Yet, irregular and painful menstruation are often permitted to go on, sapping the life and energy, while Wine of Cardui, the positive relief for these ills, is on the shelf of every drug store. Wine of Cardui helps the maiden sustain the shock of puberty by inducing a painless and natural menstrual flow. When once this important function is started right, a healthy life will usually follow. Wine of Cardui is an emmenagogue of great power, and works wonders in strengthening the delicate and sensitive female organs. Many young women owe their lives to Wine of Cardui. No woman should give up hope until she has given Wine of Cardui a trial. If thousands have secured relief through it, why not you?

WINE OF CARDUI

Tully, Kas., Feb. 24, 1899.
I have suffered untold pain at menstrual periods for a long time; was nervous, had no appetite, and lost interest in everything; in fact was miserable. I have taken four bottles of Wine of Cardui with Black-Draught when needed and to-day I am entirely cured. I cannot express the thanks I feel for what you have done for me.

It is possible that a new era has opened in the use of aluminum, at all events for fittings. "Magnallum" is the name given to an alloy of aluminum and magnesium invented by a continental scientist. The reports upon it are of the most encouraging nature, says The Yachtsman. It is lighter than pure aluminum, it can be worked and turned like brass or copper, and it is stronger than brass. It is stated that it does not oxidize at all, fumes of ammonia and sulphuric acid not damaging it. It can be turned, bored, drilled, milled, filed, ground and polished easily. Tubes working one within the other slide without the slightest fretting. Screws made of it are very strong, with clean cut threads, and durable.

NEIGHBORHOOD NEWS.

Items of Interest Contributed by Our Country Correspondents.

ORANGEBURG, May 20th.—In comparison with other election days Saturday was a dull day for business.

Dr. W. H. Ford was in Maysville Monday with workmen repairing some of his property.

Miss Ida Mayhugh visited Maysville last Monday.

Mrs. A. L. Hayden arrived from Cincinnati Thursday and will remain during the summer with her daughter, Mrs. Mattie Roe.

Mrs. Ross, Mrs. Lucy Sedden and Miss Keith Ross were visiting Mrs. Hefflin Monday.

Uncle Billy Roe and Aunt Mary came in from their country home to visit Mr. and Mrs. James R. Saturday.

Miss Lucy Bullock returned to the "burg" Monday from a visit to friends.

Rev. John McMahon, well and favorably known here, now pastor in charge of a church at Hyde Park, a Cincinnati suburb, is visiting his relatives, Mr. and Mrs. T. J. Hefflin.

Joseph Bramel, late of this place, now a resident of Paris, came down election day to cast his vote and was busy shaking hands with friends all day. He holds a responsible position with a leading stockman and is prospering.

Election day passed off very quietly, although a crowd was in town. No fights, few quarrels, but lots of betting and good natured joking. Paul Glascock, owner and driver of the Mt. Carmel bus, which makes its trips via the "burg," is universally conceded the most accommodating, trustworthy and popular bus driver that ever came up the pike.

It is Bob and not Peter Moody who is building a house and blacksmith shop just north of the village. Peter Moody bought his son out and the latter is starting in anew in the business, while his father remains at the old stand.

Grant Wilson, assisted by a number of willing and able workers, moved a one-story frame house which he purchased from Mr. Enzor last week. It was formerly occupied as an office by Dr. Bain. It is now located adjoining Grant's store and will be used as a queensware department. He is a hustler, and as a matter of course is prospering in his general store business.

The new flour mill is rapidly nearing completion. A granary will be built separate from the main building so that in case of fire it may be possible to save one of the buildings.

Charles Gilvert commenced sawing Tuesday. His first job was a lot of cedar posts from a tree that had been cut down in R. P. Toile's yard. He struck a miscellaneous assortment of old iron and was obliged to perform a slight operation on his saw, which caused a slight delay.

Mamma Collis, merchant, is one of the most industrious men in town. He builds and roofs sheds, builds fences, makes walks, whitewashes and helps the carpenters at the new flour mill in intervals of store keeping. And the beauty of it is, the work done is strictly first class, as he is an all around handy man, setting a shining example to other folks who are averse to exertion.

A horse attached to a buggy broke loose from the hitching post and started slowly homeward Saturday afternoon, colliding with another buggy occupied by two men at Jouse' corner. The hind wheel of the vehicle in motion climbed the front wheel of the other buggy and dropped off, neither vehicle, strange to say, receiving a scratch.

Bob Moody has moved into the house owned by Joe Bramel, where he will reside until the completion of his house and blacksmith shop, which are now being built.

The new flour mill was dedicated to a worthy purpose last Saturday, the Christian Church ladies having refreshments on sale there for the benefit of the church during election day. In the evening ice cream was served. Between \$25 and \$30 were realized by the young ladies who had charge of the affair.

Go get greens, is the mandate husbands are most frequently called upon to obey by their better halves in this vicinity at this season. Hog jowl and greens is a symphony in itself. What visions those words conjure up to those of Dixie raisin! The toothsome jowl, country cured, sweet and supremely satisfying to the palate, boiled with the greens, a mixture of dandelion, mustard, narrow dock and tender shoots of pokeberry sprouts that melt in your mouth almost. Then a dash of good vinegar, salt and pepper to taste, and—"Go way niggah an' shut de doh; I don't watch me eatin'!"

Mrs. Harrod, the lady preacher, abstracted a few moments from her sermon Thursday evening last to pay her respects to the "BULLETIN" correspondent. And what she said "was a plenty," as the colored individual sagely remarks. Her flowery compliment, verbatim, was as follows: "The devil's servant has been shooting paper wads at me!" She brought her series of sinless sanctification sermons, as she calls them, to an abrupt close Friday evening, May 17th. It was an early close, twelve o'clock, whereas on the majority of other evenings she held forth until two or three o'clock a. m. On this occasion she again paid her respects to newspapers. A young man who made a bet of \$1 with a comrade one evening during the meeting that he would go up to the "mourners' bench" and return unclothed, was "floored" when several feet away and remained in a trance for several hours. He reports that he felt decidedly unwell during his semi-conscious state. Mrs. Harrod said one evening last week that she felt sorry for Uncle Jonece McKay, on account of his misfortune, and designated him as the "old man of the toms," referring to his walled habitation and adjacent cellars. This was very well put and does equal credit to her head and heart, but if she had only tarried in our midst a few more weeks she would have thought that the corner was the liveliest graveyard in the country when Dr. Hord begins his improvement. Her sympathy, although perhaps well meant, was not exactly necessary, as Uncle Jonece has never suffered for a "bit or sup," kind friends in the vicinity seeing that his few wants are supplied day by day. He would have had a snug shelter built by contributing citizens long ago only for his obstinacy in fending off his would-be helpers. The lumber and roofing material are now on hand to make him a comfortable room and it will soon be completed. Uncle Jonece has always been treated with consideration by his fellow citizens, and at one time was postmaster of the village. He is an ultra expansionist as far as "burg" is concerned, has made possible by liberal concession several notable improvements, and shouts with joy on perceiving the "growing pains" of the town where he has been a resident and property holder for two score years and more. Mrs. Harrod's destination is Rugglesville, a mountain town, where it is hoped she will have all the success she merits.
